Tax Law Governing Change Of Residence Pointed Out

A provision of Internal Revenue law, new last year, gives an added advantage to individuals who sell or exchange a principal residence and, within one year following the sale date, procure another principal residence, either by sale or exchange. In certain instances the new provision reduces the amount of the gain from the sale of the old principal residence on which income tax must be paid. Basically, the law provides that, if a principal residence is disposed of and, within the two-year period mentioned above, a new principal residence is acquired which costs as much as or more than the sale price of the old principal residence, payment of tax on the gain realized from the sale of the old residence is postponed. However, if the new residence costs less than the amount received for the old residence, income tax is payable on that portion of the gain from the sale of the old residence which is not expended on the new home.

Local Woman Is Suicide

An elderly Torrance woman apparently committed suicide late Wednesday afternoon because she was in ill health, according to police reports. The woman, Rosa Salagay, 68, of 16418 Wilton Pl., was taken to Harbor General Hospital with multiple lacerations on her wrists and legs. She reportedly inflicted the wounds with a razor blade. She died shortly after admittance at the hospital. The victim's daughter, Anna Healy, of the Wilton Pl. address, found her when she came home from work. Officer Ray Slagay, of the Torrance Police Department, was reported to be a grandson of the victim.

National Supply Sales Volume Up 15 Per Cent

"Sales of the National Supply Company in the first quarter of this year are running more than 15 per cent ahead of the same period a year ago, and profits are following an upward trend established during the last half of 1955," President Arthur W. McKinney announced at the annual meeting of stockholders held April 4 in Pittsburgh. "Our backlog of orders," McKinney continued, "is satisfactory for most of the items we manufacture." The demand for oil country tubular materials, he said, is particularly strong, with the backlog of most other oil field items substantially larger than it was a year ago.
